

# Application flows by role

School Marks Analytics — Principal, Co-ordinator, Teacher

Generated 2026-09-18

---

School Marks Analytics - how the product works for Principal, Exam co-ordinator, and Teacher.

Use this sheet for a quick map of each role's path. For step-by-step screens and checklists, open the matching role user manual under HELP.

---

## Shared spine (all school staff)

Access -> Login -> Role desk (/) -> Work exam -> Marks cycle -> Insights / outputs

### Getting access

- New school - register at /register-school (creates the school and an active principal).
- Staff - open /signup, enter the school's join code (from School profile), and wait for leadership to activate the account.
- Sign in - email, school ID, and password (+ MFA if enabled).

### Core marks cycle

```
Teacher / Co-ordinator enters draft
-> Submit
-> Principal / Co-ordinator Approve
-> Analytics, ranks, official CML, parent portal
```

Only approved marks feed school analytics, ranks, official consolidated lists, and the parent portal.

---

## Principal

Job: school setup, staff and access, approve marks, leadership analytics, board-facing outputs. Principals do not enter or bulk-upload mark registers.

```
Login -> Principal desk
%
% % Setup (once / yearly)
%   School profile -> Records -> Staff -> Timetables
%
% % Per exam
%   Confirm records / lock consolidation
%   -> Pending uploads (chase + Approve)
%   -> Access requests (late / edit)
%   -> Official CML + Hall tickets
%   -> Deep insights / school reports
%   -> Board ops publish (if enabled)
%
% % Oversight
%   Full audit log | notify teachers | portal links
```

### Principal-only

- Create and manage exam co-ordinator accounts
- Manage role feature access
- Rotate the school join code
- Toggle optional modules (Board ops / CPD) when saving school profile
- View the full audit trail (including co-ordinator actions)

### Typical principal checklist (per exam)

- Confirm subjects, max marks, roll, and paper dates in Records.

- Lock consolidation max marks when ready.
- Confirm teacher assignments and deadlines.
- Clear Pending uploads - notify, then Approve.
- Resolve Access requests only when needed.
- Review Deep insights -> Exam readiness, then school/class/subject reports.
- Generate official consolidated lists and hall tickets.
- Publish / sign off report cards (Board ops) if used.
- Spot-check the Audit log if any result is questioned.

## Exam co-ordinator

Job: day-to-day exam operations - records, teacher chase-ups, mark entry when needed, approvals, consolidated lists, hall tickets, and operational analytics.

Login -> Exam coordination desk

```
%
% % Setup (ops ownership)
%   Records | Staff (teachers) | Timetables
%   | School profile (join-code rotate is principal-only)
%
% % Per exam
%   Assignments + deadlines
%   -> Mark register / Bulk upload (when covering gaps)
%   -> Pending uploads (notify + Approve)
%   -> Access requests
%   -> Hall tickets + official CML
%   -> Exam readiness / subject analytics
%
% % Support
%   Board ops / CPD (if enabled) | portal links | teacher-action audit
```

## Co-ordinator vs principal

| You can                              | Principal only                  |
|--------------------------------------|---------------------------------|
| Enter and bulk-upload marks          | Create co-ordinator accounts    |
| Approve / unapprove / moderate       | Manage role feature access      |
| Manage teachers, records, timetables | Rotate join code                |
| Edit school profile and logo         | Toggle optional modules on save |
| Leadership analytics and CML         | Full audit across all roles     |

## Typical co-ordinator checklist (per exam)

- Confirm classes, subjects (entry max), students, and exam paper dates in Records.
- Set and lock consolidation max marks.
- Verify teacher assignments and timetables.
- Send deadline notices; watch Pending uploads.
- Enter or upload marks yourself only for papers you cover or when covering gaps.
- Approve submitted registers; handle access requests carefully.
- Check Deep insights -> Exam readiness and subject difficulty.
- Produce hall tickets and official consolidated lists when every paper is approved.
- Support Board ops publish/pack steps if your school uses them.

## Teacher

Job: enter and submit marks for assigned papers, respond to leadership notices, review own-class analytics, and (if class teacher) download the section's consolidated list when every paper is approved.

```
Signup (join code) -> Principal activates + assigns papers
    -> Login -> Teacher desk
%
% % Per exam
%     See assigned papers + notices
%     -> Mark register / Bulk upload
%     -> Save draft -> Submit
%     -> (If blocked) request late entry / edit
%         -> wait for approval -> resubmit
%
% % If class teacher
%     Read-only view of section registers
%     -> Download CML only when every subject is approved
%
% % Also
%     Hall tickets (view / download)
%     | own Classes / Students analysis
%     | own CPD record
```

## What teachers cannot do

- Approve or moderate other teachers' marks
- Manage staff, school profile, or whole-school records
- See incomplete consolidated lists
- Open leadership-only analysis (school overview, subjects hub, teacher comparison, deep insights) unless the principal customises role features

If a paper is missing from your register list, ask leadership to check your assignments under Staff.

## Typical teacher checklist (per exam)

- Confirm your assigned papers on the Teacher desk.
- Enter or bulk-upload marks; save drafts as you go.
- Double-check absences (AB / EX / WH) before submit.
- Submit each complete register before the deadline.
- Watch the bell for reminders or access-request decisions.
- If you are class teacher, download the consolidated list when the section is ready.
- Download hall tickets for your classes when leadership has prepared them.
- Use Students analysis for parent meetings or remedial follow-up.

## Who does what (at a glance)

| Task                                         | Principal                      | Co-ordinator                 | Teacher                                          |
|----------------------------------------------|--------------------------------|------------------------------|--------------------------------------------------|
| Enter / bulk-upload marks                    | -                              | Yes                          | Yes (assigned)                                   |
| Approve submitted registers                  | Yes                            | Yes                          | -                                                |
| Manage staff and assignments                 | Full (incl. co-ordinators)     | Teachers and assignments     | -                                                |
| School profile and join code                 | Yes (rotate is principal-only) | Edit profile (not join code) | -                                                |
| Records (classes, subjects, students, exams) | Yes                            | Yes                          | -                                                |
| Consolidated mark lists                      | Yes                            | Yes                          | Class teachers only (own section, when complete) |

|                                     |      |                 |                                    |
|-------------------------------------|------|-----------------|------------------------------------|
| School / subject / teacher analysis | Yes  | Yes             | Limited (own classes and students) |
| Timetables                          | Yes  | Yes             | View own schedule if shared        |
| Board ops and CPD (when enabled)    | Yes  | Yes             | Own CPD record                     |
| Audit log                           | Full | Teacher actions | -                                  |

## Special mark codes

| Code | Meaning  |
|------|----------|
| AB   | Absent   |
| EX   | Exempt   |
| WH   | Withheld |
